ABSTRACT

The test packet is part of an eight volume unit for grades 10, 11, and 12, designed for individualized progression in preparing the student for entry into the occupation of accounting clerk. The test packet contains both pretests and post-tests for lessons 12 through 21. The unit is concerned with the basic accounting theory as it is used in the combination journal and subsidiary ledgers. It also acquaints the student with payroll procedures and data processing for accounting. The material presented is closely coordinated with the other documents in the eight volume accounting unit.
